Portable bench-top · clinic and sports medicine

Pneumatic Ballistic Shockwave Therapy System

High-pressure air drives a projectile inside the handpiece; each pulse transmits energy through the skin, producing a biological response deep in the tissue.

Key features

- Simple to operate, quick to master
- Hi-res touch screen control
- Compliant medical device qualification
- Ergonomic handpiece, easy to hold

Key features

- Simple to operate, quick to master
- Hi-res touch screen control
- Compliant medical device qualification
- Ergonomic handpiece, easy to hold
- Portable design for more scenarios

Scope of application

Adjuvant therapy for plantar fasciitis and tennis elbow

Specifications

Weight	10.76 kg
Body dimensions	380 x 361 x 206 mm
Shockwave generation	Pneumatic ballistic
Max. working pressure	4.0 bar
Max. energy density	65 mJ/cm2 (+/-20%)
Max. penetration depth	20 mm (+/-10%)
Pulse width	300 us (+/-20%)
